

*Step Up to Careers in Healthcare*

*Begin now and move toward a high demand career!*

## Build a Healthcare Career with Whatcom Community College

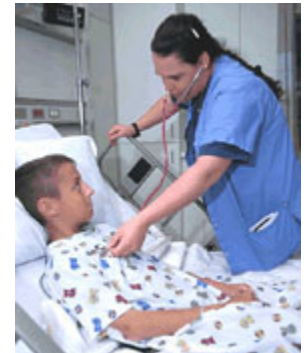

# Medical Assisting Program

### Take it on up:

Sit for the national exam and become a Certified Medical Assistant (CMA). Take a few more general education classes and complete your Associate degree. Continue on with your education at a university with a Physician's Assistant program.

### Add another certificate or endorsement:

Add just a few more courses to get the Medical Billing and Coding Certificate, Medical Assisting Certificate, or the Medical Transcription endorsement. Work in a medical office or hospital...or continue on to the next level...

### Or here:

Get the Medical Front Office Reception Certificate through either integrated and/or traditional classes. Go to work in a medical office...or continue on to the next level...

### Start here:

With Bridges to Healthcare, a two-quarter program for ABE and ESL students. Go to work as an aide or beginning phlebotomist, or move to the next level...
